

EU Regulation 1907/2006 (REACH) Compliance / EU REACH Article 33 Declarations

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a regulation of the European Union managed by the European Chemicals Agency (<http://www.echa.europa.eu>), adopted in December 2006 to improve the protection of human health and the environment from the risks that can be posed by chemicals.

Carestream is committed to meeting its legal obligations under REACH, whether as a manufacturer, importer or downstream user. We work closely with our suppliers and customers to ensure continued compliance throughout the supply chain.

Based on information provided by our suppliers, the attached table identifies the REACH SVHC (Substances of Very High Concern) that may be in this product at a concentration greater than 0.1% weight by weight. The substance(s) listed do not pose a safety risk to customers.
